

X2 INSTRUCTIONS FOR USING SPRAY BRUSH

PRODUCT INTRODUCTION

Please read this user manual carefully and keep it properly before using the product.

This product is a handheld manual cleaning brush, consisting of a 3.6-12 meter telescopic rod, paired with a 40cm long brush head, and an internal water supply to achieve efficient cleaning results. It can be used for cleaning media such as photovoltaic panels, high-altitude glass, and exterior wall floors, and is widely used.

* This diagram is for the water pump version

USE FLOW

- 1 Connect the telescopic rod to the brush head and adjust the appropriate brush head angle.
- 2 Connecting the water supply system:
【 Water pump version: water pipe directly connected to faucet or connected to water pump connected to bucket. 】
【 Faucet version: water pipe directly connected to faucet. 】
- 3 Adjust the length of the telescopic rod and achieve long-distance operation by holding the telescopic rod.

WARRANTY STATEMENT

Provide a one-year warranty for the entire machine (excluding natural wear and tear of brush heads, tool kits, and gifts)

* If there are product agents in your country, you can enjoy comprehensive free warranty services; If there are no agents in your country, you can still enjoy free repairs, but you will need to bear the international shipping costs incurred by the repairs.
